

Preferred partner solution of

How Blue J eases the tax research burden for small firms

AI-powered tax research designed for speed, accuracy, and trust.

Challenges

Staying up to date with tax law

Constant changes are hard to track.

Limited research capacity

No big team to do deep analysis.

Risky research sources

Unreliable info = compliance risk.

Time-consuming tax research

Manual research is slow and draining.

Client expectations & advisory pressure

Clients want fast, clear answers.

How Blue J solves this

Real-time updates powered by licensed data and Tax Notes commentary.

Built on authoritative sources. Industry-leading answers, even for complex questions.

Streamlines tax research for senior leaders and junior staff.

Empowers your team. Quick learning curve, intuitive interface, strategic focus for seniors.

Trusted, verifiable answers with citations from official tax content.

Built for compliance. Every answer backed by transparent, trusted sources.

Research in seconds, not hours. Ask, and get instant, accurate answers.

No sifting through volumes. No wasted hours. Just results.

Client-ready insights and automated drafting of memos, emails, and summaries.

Explain tax law simply. Deliver high-quality advisory in less time.
